MIDDY'S
INDIGENOUS SUPPLY

CAPABILITY STATEMENT//

ABOUT US //

Middy's Indigenous Supply (MIS) is a proud national Indigenous supply partnership created to deliver trusted procurement solutions for the electrical industry. We specialise in high-quality electrical products and services across large-scale commercial developments and remote regional projects.

As a **Supply Nation registered** and ICC Assured business, MIS drives Indigenous economic advancement through excellence in supply chain participation. We provide access to certified electrical goods across a wide range of projects - from tier-one commercial builds to critical infrastructure in regional and remote Australia.

We operate under a **Quality Management System** aligned to ISO 9001 standards, ensuring consistent service and product quality across all procurement engagements.

Our leadership is grounded in Indigenous ownership and decades of industry experience, combining a commitment to community with a proven track record in construction and electrical delivery across Australia.

OUR PURPOSE

At MIS, we are driven by a clear purpose:

- **To empower Indigenous communities** through meaningful commercial opportunities and long term employment pathways
- **To deliver trusted, high performance solutions** to contractors and project stakeholders across the country
- **To innovate and evolve** with the changing needs of the construction and electrical sectors
- **To act with integrity,** transparency, and a commitment to shared success

OUR MISSION

To deliver premium electrical products and tailored procurement services while advancing Indigenous participation and economic growth in the construction and electrical industries.

OUR VISION

To be Australia's trusted Indigenous electrical supply partner - empowering communities, fostering sustainable partnerships and setting the benchmark for service, quality and cultural integrity in procurement.

WHAT WE OFFER //

MIS delivers more than just product supply. Our capabilities span across:

ELECTRICAL PRODUCT SUPPLY

Access to a comprehensive catalogue of compliant, high-performance electrical components sourced through trusted national manufacturers and suppliers.

TECHNICAL SUPPORT & CONSULTATION

Our experienced team works closely with project teams to recommend solutions tailored to site conditions, project goals and compliance requirements.

CUSTOM SOLUTIONS

From innovative product alternatives to tailored delivery and logistics plans, we help maximise project value through smart, adaptable procurement strategies.

OUR STRENGTHS //

- **Nationwide Reach, Local Presence**
  Backed by Middy's extensive branch network, we offer national distribution capacity with strong local stock availability and service responsiveness
- **Design and Technical Expertise**
  Our team provides technical support and design collaboration to improve project performance and ensure compliance
- **Strategic Supplier Partnerships**
  Our trusted supply relationships ensure access to competitively priced, Australian-standard electrical products at scale
